

Staff briefing: running a phone-free event

WHAT TO SAY

“Tonight's a phone-free event - pop your phone on silent and slide it into the Pouch. It locks shut and stays with you. If you need it at any point, come to an Unlocking Station and we'll open it for you.”

LOCKING THE POUCH

The Pouch locks in one click. Guests keep their own phone the whole time, nothing is confiscated or handed over.

UNLOCKING STATIONS

Keep Unlockers at the exits and at least one staffed point inside. A Pouch opens in seconds on the Unlocker.

GOOD TO KNOW

The Pouches don't block signal, so emergency alerts, medical-device monitoring and urgent calls still get through.

Locked in sections, Unlocked instantly.
